

Senior Resource Geologist

- **Melbourne Based Opportunity**
- **Mining Consultancy**
- **Senior Position 15+ Years Experience**

Mining One is an independent group of highly experienced and professional mining, geotechnical and geological consultants. Our well respected team has extensive industry knowledge and experience in a diverse range of disciplines.

Mining One currently have offices in Melbourne, Adelaide, and Perth servicing both national and international clients.

We are currently seeking a Senior Resource Geologist to join our Melbourne team.

Qualifications

Degree in geological sciences preferred; other qualifications may be acceptable. Post graduate qualifications preferred but not essential.

Description

Broadly this role will involve working within multi-disciplinary project teams comprising geotechnical and mining engineering personnel, and participating in workgroup initiatives including technical activities, project management and business development. Part of this role will include building and developing a team of geologists to work under your supervision.

Competency and Experience

It is desirable that the ideal candidate will have held a Senior Resource Geologist position at a large mine site. Experience in a variety of base metals, precious metals, coal or industrial mineral resources is desirable.

Additionally candidates should be:

- **Team Orientated**
- **Motivated and enthusiastic**
- **Flexible to travel interstate when required**

To be successful in this role you will need to have a strong work ethic and be able to build and maintain client relationships. Australian residency is required for this position.
